Our Collaborative Culture: Cultivating the Best Ideas

Open sharing of information and debate of differing viewpoints help us uncover opportunities and identify risks across our investment platform. Our collaborative asset class investment forums bring teams together regularly across disciplines, markets, and regions of the world – offering global perspective with local insights to generate the best investment ideas.

An Integrated Approach to Responsibility

Our collaborative culture also informs our integrated approach to ESG investment and corporate responsibility. We believe businesses that are sustainable create the most value for investors and for society at large – and this is true both for ourselves as a firm and for the companies in which we invest.

We began our sustainable investing journey in 2006, when our investment teams integrated ESG principles into their processes. As part of our continued commitment, we became a signatory of the United Nations Principles for Responsible Investment in 2015, formed our own Corporate Responsibility Steering Committee in 2019, and instituted a Global Head of Corporate Responsibility in 2021.
